Application No. 10/624,645

Continuation of Substance of Interview including description of the general nature of what was discussed: The examiner indicated the allowability of claims drawn to undecyl esters (R4) of carnitine. Since X in the independent claims is an anion, the examiner suggested the deletion of terms such as 'acid citrate and acid phosphate in the dependent claims. The molar ratio of the compound to Taxol or camptothecin (40:1) to be added in the independent claims. These will be done by an examiner's amendment.
